

GLC Portage Prairie IV

Dylan Dr
South Bend, IN 46628

GLC has hired Majority Builders to build its fourth warehouse in four years at Portage Prairie. The 166,000 SF cross docked facility includes precast construction with 32-foot clear ceiling heights and is located on US 31 close to the Michigan state line. Having broken ground on October 1, 2019, the project is expected to be complete by May 1, 2020 and is ideal for companies looking for a logistics or distribution center.
